Experience

Hello Hobbi (personal project) | Developer and designer

2022

- Created a unique conceptual project - AirBnb for hobbies.
- Developed MERN application with RESTful API. Made API calls with Axios.
- Managed and updated application state with Redux. Self-taught Redux.
- Tested different technology stacks to develop the application (Firebase and MERN).

Materielle (personal project) | Developer and Designer

2021 - 2022

- Developed MERN application. Self-taught React.
- Implement dynamic routing using React Router.
- Stored images in the cloud with Cloudinary. Self-taught cloud storage.
- Managed application state with createContext and useContext React hooks.
- Manipulated the DOM using useState hooks.

Earthenwares (school project) | Web developer, Git master

2022

- Worked collaboratively using agile methodology.
- Conducted extensive UX research. Shared ownership of the lo-fi and hi-fi prototypes.
- Lead backend development, creating a full-stack CRUD application.
- Managed online GitHub repository as Git Master. Merged all pull requests.

Extracurricular and Volunteer Experience

Yoobee Coding Games Club | Founder

2022

- Founded the club. Grew membership to 30% of my class, maintained 100% of members.
- Hosted fortnightly meetups. Liaised with staff to book rooms for meetups.

Studio Frances | Founder, designer & tattoo artist

2020 - 2021

- Founded my own tattoo business between lockdowns, making \$2353 in the first year.
- Tattooed 35+ clients within two months of opening.
- Created a user-focused experience that empowered clients to voice their needs and collaborate artistically.

Additional Experience and Qualifications

Build a Serverless Web Application with AWS | 2 hour online workshop
